MISSION ORGANIZER

GOVERNMENT OF ALBERTA

Ministry of Jobs Economy and Trade leads efforts to grow Alberta's economy by supporting Alberta's entrepreneurs and employers, promoting trade and investment, helping recruit and retain workers, and promoting safe, fair and healthy workplaces by:

- Jobs: helping attract skilled workers and establishing and enforcing Alberta's employment standards and laws governing the health and safety of Alberta's workplaces
- Economy: supporting Alberta entrepreneurs, businesses and communities to drive growth and job creation
- Regional development: supporting the unique economic development needs of Alberta's various regions
- Trade and investment: attracting investment, promoting trade and supporting Alberta businesses' abilities to access new markets.

MISSION PARTNER

CALGARY ECONOMIC DEVELOPMENT

We make the connections that help businesses flourish in Calgary. That means helping established businesses find new markets and new talent. We also promote the city to enterprises looking to establish new offices.

We want to make Calgary the city of choice for big thinkers and entrepreneurs. To do that, we tell Calgary's story to the world and shine a light on the strategic initiatives that fuel economic growth and contribute to the city's resilience and diversity.

DELEGATE PROFILE

ILLUMIA LABS INC

Illumia Labs bridges the gap between institutional knowledge and real-time operational mastery. We empower high-stakes organizations to digitize expertise, accelerate training, and ensure success through AI-driven intelligence. By fusing advanced simulation development with Subject Matter Expert (SME) digitization, we create effective training and operational support ecosystems.

TARGET CUSTOMER

Targeting Taiwan 3D simulation partners, airport stakeholders, robotics/AI providers, industrial engineering firms, and strategic investors to scale our cognitive engine.

[Illumialabs.ai](https://illumialabs.ai)

The logo for illumia labs features the word "illumia" in a dark blue, lowercase sans-serif font, followed by "labs" in an orange, lowercase sans-serif font. Above the "i" in "illumia" are three small orange curved lines.

Immersive. Limitless. Learning.

DELEGATE PROFILE

RUNWITHIT SYNTHETICS

RUNWITHIT Synthetics (RWI) is a Canadian AI leader providing No-GPU, low-carbon 6D Digital Twin technology. We empower governments and enterprises with high-fidelity decision support, eliminating hardware bottlenecks and maximizing long-term ROI. By integrating cross-sector data, RWI models complex scenarios to de-risk infrastructure investments. Our platform enables clients to visualize trends and optimize resources while meeting ambitious ESG goals.

TARGET CUSTOMER

Gov/Smart City: Planners seeking resilient governance tools. Infrastructure: Utilities needing ROI sandboxes. Tech: OEMs, No-GPU AI.

Cyshon@teknobuilt.com

DELEGATE PROFILE

THE NANOFAB

We are an open access nanofabrication & characterization centre. The nanoFAB is a national, open-access training, service, and collaboration centre, focused on academic and industrial applications in micro- and nanoscale fabrication and characterization

TARGET CUSTOMER

Our goal is to be a central hub for multi-sector collaboration, forging strong partnerships with academic institutions, industry leaders, and technology developers. Through these connections, we will support pioneering research and drive the creation of next-generation technologies. The nanoFAB is dedicated to leading in nanoscale science and technology, shaping the future of high-tech industries and research.

DELEGATE PROFILE

WEDGE NETWORKS INC.

Wedge Networks pioneers agentic AI workflow security — a new category built for AI systems that take autonomous, real-world actions. The WedgeSecure Agent platform integrates with frameworks like NVIDIA NeMo and LangChain Guardrails, enforcing continuous trust across Intent, Context, Model, and Tooling boundaries. With prompt injection detection, content safety, secure model routing, and continuous authorization, it makes agentic AI safe, accountable, and compliance-ready.

TARGET CUSTOMER

Organizations that are developing and deploying agentic AI applications.

DELEGATE PROFILE

ZEROKEY

ZeroKey is a Canadian technology company delivering ultra-precise real-time location systems (RTLS) with 1.5 mm accuracy for industrial environments. Its platform enables manufacturers to digitize physical operations in real time, supporting automation, quality control, and workflow optimization. At Computex/InnoVEX, ZeroKey will highlight its role in enabling physical AI, robotics, and next-generation smart factory solutions.

TARGET CUSTOMER

ZeroKey targets OEMs, SIs, distributors, and resellers in automotive, aerospace, electronics, and manufacturing, engaging leaders in engineering, innovation, and deployment of industrial tech.
