## Delegation Overview

---

### Sinoveda Canada Inc

**Contact:** Nuzhat Tam-Zaman, Co-founder

**Location:** Edmonton, Alberta

**Email:** [ntzaman@sinoveda.com](mailto:ntzaman@sinoveda.com)

**Website:** [www.sinoveda.com](http://www.sinoveda.com)

#### Company overview:

Canadian health brand utilizing patented Pharmaceutical Platform Technology (PPT) with AI and machine learning to standardize and optimize natural compounds from plants. Develops clinically proven botanical remedies including Cordyva (Health Canada-approved for Long Covid and respiratory illnesses), Effecti-Cal (optimized calcium supplement), and Proflexa (topical pain relief). Focuses on drug discovery combining Eastern traditional medicine with Western pharmaceutical precision for treatment of Long Covid, cancer, and hormone replacement therapies.

# Thoth BioSimulations Inc

**Contact:** Khaled Barakat, CEO

**Location:** Edmonton, Alberta

**Email:** [kbarakat@thothbiosimulations.ca](mailto:kbarakat@thothbiosimulations.ca)

**Website:** <https://www.thothbiosimulations.ca/>

## Company Overview:

At Thoth Biosimulations, we are redefining drug discovery through the power of generative AI. Our mission is simple but bold: to design safer, more effective therapies faster and at lower cost. By combining cutting-edge artificial intelligence, deep scientific expertise, and systems-level modeling, we streamline the discovery and optimization of small molecule drugs, targeting today's most complex and challenging diseases.

Our flagship platform, AI-MedCraft, performs multi-objective optimization at the molecular level—simultaneously balancing efficacy, safety, solubility, and selectivity. Unlike traditional approaches that optimize one property at a time, AI-MedCraft navigates vast chemical spaces to craft novel molecules that meet multiple critical criteria in one go.

**Rolla**

**Contact:** Kemi Bolatito, CEO

**Location:** Edmonton, Alberta

**Email:** [Kemi@getrolla.com](mailto:Kemi@getrolla.com)

**Website:** [www.getrolla.com](http://www.getrolla.com)

## **Company Overview**

All-in-one corporate wellness platform combining AI-powered wearable health band with comprehensive fitness and wellness software. Delivers unified Health Score based on activity tracking, sleep monitoring, heart rate variability, and readiness indicators with 7-day battery life. Features include virtual training platform (Rolla World), team challenges, leaderboards, AI-powered food scanner, and Active Points system. Targets corporate wellness programs to improve employee health, productivity, and company culture through gamified health tracking and engagement.

# Edmonton International Airport

**Contract:** Robert Carson, Manager, Demand & Product Development (Cargo)

**Location:** Edmonton

**Email:** [rcarson@flyeia.com](mailto:rcarson@flyeia.com)

**Website:** [www.flyeia.com](http://www.flyeia.com)

## Company Overview

Canada's 5th busiest airport and largest by land area, serving as hub for Northern Alberta and Northern Canada. Beyond aviation operations, EIA leads in sustainable airport development including world's largest airport-based solar farm, hydrogen fuel cell vehicle fleet, and pharmaceutical logistics certification (IATA). Operates Airport City development with business park, outlet mall, and innovation initiatives. Pursues environmental sustainability, cargo village operations, and strategic partnerships for clean energy and technology innovation.

# Associated Health Systems Inc

Celebrating 35 Years in Healthcare

**Contract:** Troy Hutchinson, National Sales Manager

**Location:** Edmonton

**Email:** [troyh@ahsinc.ca](mailto:troyh@ahsinc.ca)

**Website:** [www.ahsinc.ca](http://www.ahsinc.ca)

## Company Overview

Canadian specialty medical/surgical distributor with ISO 13485:2016 certified MDSAP custom manufacturing capabilities. Founded 1990 with distribution facilities across Canada. Supplies medical carts and storage solutions, acute care equipment, multi-sensory environments for dementia and autism care, rehabilitation technologies (including VR motion capture with Evolv), fall prevention products (HipSavers hip protectors), healthcare training simulators, cold therapy treatments, and healthcare furniture. Partners with Safer Healthcare Now campaign focusing on operational efficiency, surgical site infection reduction, and injury prevention.

# Precision Design & Manufacturing Inc

**Contract:** Qusai Shah, Sales Representative

**Location:** Westlock, Alberta

**Email:** [sales@precisioncanada.com](mailto:sales@precisioncanada.com)

**Website:** [www.precisionwatersystems.ca](http://www.precisionwatersystems.ca)

## Company Overview

Westlock, Alberta-based North American leader in design and manufacture of high-quality stainless steel water purification systems. Specializes in CSA/UL-certified water distillers for residential and commercial applications, removing contaminants including minerals (calcium, magnesium, fluoride, nitrates, heavy metals), bacteria, viruses, and protozoa through steam distillation. Product line includes automated counter-top and family-size systems (5-20 gallon capacity) with mirrored-finish stainless steel construction. Also offers commercial-grade RO systems through affiliated brand Purely Natural for multi-stage filtration applications.

## Bio-Stream

**Contract:** John Murphy, CEO

**Location:** Edmonton, Alberta

**Email:** [jmurphy@bio-stream.com](mailto:jmurphy@bio-stream.com)

**Website:** [www.bio-stream.ca](http://www.bio-stream.ca)

### Company Overview

Point-of-care diagnostics company developing innovative at-home testing solutions through proprietary traxPlatform comprising low-cost sensors, universal reader, and software for data analysis. Collaborates with researchers, centralized labs, and diagnostic companies to bring accessible, smartphone-based health testing to market. Supports test developers and commercialization partners in ensuring financial viability and accessibility of new diagnostic technologies. Simplifies diagnostic processes for end users through easy-to-use system accessible via smartphone app for various health-related tests.

# Conlis Global

**Contract:** Sumrita Bhatt, CEO

**Location:** Calgary, Alberta

**Email:** [sumritabhat@conlisglobal.com](mailto:sumritabhat@conlisglobal.com)

**Website:** <http://www.conlisglobal.com/>

## Company Overview

Canadian biotechnology company specializing in tissue engineering, regenerative medicine, and regulatory compliance services. Provides comprehensive support for medical device and pharmaceutical commercialization including clinical trial management, regulatory pathways (Health Canada, FDA eSTAR, MDL, MDSAP), verification and validation studies, and laboratory establishment services. Develops NanoCement technology for bone regeneration with partnerships including IIT Kanpur. Offers MVP-to-market guidance, manufacturing blueprints, and quality management system implementation for healthcare innovators.

# Naturemary

naturemary

**Contract:** Kapil Kalra

**Location:** Calgary, Alberta

**Email:** [kapil.kalra@naturemary.com](mailto:kapil.kalra@naturemary.com)

**Website:** [www.naturemary.com](http://www.naturemary.com)

## Company Overview

Calgary-based manufacturer of natural, organic, vegan, and cruelty-free body care products formulated with Beta-Caryophyllene (BCP).

Specializes in topical pain relief and wellness products including

+Rescue Cream, +Therapy Roll-on, and +Recovery Stick targeting

arthritis, chronic pain, muscle soreness, and inflammation.

Products designed to interact with body's endocannabinoid system

for natural pain management without harsh chemicals. Focuses on

holistic wellness combining science-based formulations with

natural healing properties for active lifestyles and chronic pain

management.

## Surface Medical

**Contract:** Iwain Lam, President-CEO

**Location:** Calgary, Alberta

**Email:** [iwain@surfacemedical.ca](mailto:iwain@surfacemedical.ca)

**Website:** [www.cleanpatch.ca](http://www.cleanpatch.ca)

### Company Overview

Alberta-based medical device company developing CleanPatch, FDA, Health Canada, and CE-Mark registered medical surface repair patch for hospital beds, stretchers, wheelchairs, and other healthcare surfaces. Restores damaged mattresses and equipment to intact, cleanable, hygienic state to reduce healthcare-associated infections (HAIs) including C. difficile, MRSA, VRE. Simple peel-and-stick application using latex-free, biocompatible materials with Microban antimicrobial technology. Provides cost-effective alternative to replacement, extending equipment life, reducing landfill waste, and enhancing infection prevention protocols. Implemented in 360+ healthcare facilities across 15 countries.

# Bow Valley College

**Contract:** Tasneem Rahim, Vice President

**Location:** Calgary, Alberta

**Email:** [trahim@bowvalleycollege.ca](mailto:trahim@bowvalleycollege.ca)

**Website:** [www.bowvalleycollege.ca](http://www.bowvalleycollege.ca)

## Company Overview

Calgary and region's comprehensive community college with 14,000+ students and campuses in Calgary, Airdrie, Cochrane, and Okotoks. School of Health and Wellness offers career-focused healthcare education including Licensed Practical Nurse, Pharmacy Technician, Health Care Aide, and specialized programs in perioperative and interdisciplinary therapy. Features hands-on industry-relevant training with VR simulation technology, seven healthcare simulation labs, and work-integrated learning placements. Invests in three applied research pillars: educational technology, social innovation, and health. Awarded \$1M NSERC Mobilize grant for health technology research acceleration.

# EMeRG Medtech

**Contract:** Krishanu Bhattacharjee

**Location:** Calgary, Alberta

**Email:** [krishanu.b@emerg-inc.com](mailto:krishanu.b@emerg-inc.com)

**Website:** <https://www.emerg-inc.com/>

## Company Overview

Calgary-headquartered med-tech intelligence platform providing Hospital Intel Suite (formerly HospeTrack), the world's largest hospital intelligence platform. Covers 108,000+ hospitals across 65+ countries (expanding to 100+ in 2026) with bottom-up, account-level data on hospital universe mapping, ICU/bed/device intelligence, installed base tracking, procedure-level insights, and market sizing. Serves medtech, pharma, consulting, PE/VC firms for customer discovery, market sizing, competitive intelligence, and strategic planning. Specializes in emerging markets including Middle East. Offers AI-driven sales propensity analytics and predictive replacement-cycle analytics.
